01. About us

We are a group of people from different backgrounds united by passion for technology (especially for the blockchain), we are always looking for new innovative solutions and we fit each other skills by covering different roles.

Besides our passion for technology, we are also passionate about Gin and we aim to create the first alcoholic drink available both in the real world (through the creation and promotion on our own e-commerce platform) and on the Metaverse.

The team is made up of people from all over the world and is ready to join forces in order to achieve this inspiring and ambitious goal.

02. About MetaGin

Metagin is the union between the words Metaverse and Gin, and it is going to be the first alcoholic drink available in three different versions:

- 1) MetaGin token for crypto lovers and investors;
- 2) MetaGin drink available on our e-commerce platform;
- 3) Virtual MetaGin drink available on the Metaverse.

03. Barman Function

A special function that will help to obtain several resources for marketing and listing on famous exchange platforms, as well as to maintain a stable graph through buy back of the token by our team.

A part of these tokens will be burned, while the remaining ones will be used for special marketing campaigns to help promoting and let new people learn more about our token.

04. E-Commerce2K22

A revolutionary e-commerce platform where users will be able to make transactions with classical currencies (euro, dollars, yuan, etc.), the most popular crypto (bnb, btc, eth, etc.) and, most importantly, with MetaGin token.

Those using our token will enjoy some convenient discounts, and it will help to increase the number of transactions.

You might be thinking: "many people have no idea how to use tools such as Metamask or Trustwallet, some do not even know that they exist! How can they manage to purchase our token on our e-commerce?"

Well, we also thought about that and through a simple transaction even those who have no previous knowledge of these tools will be able to buy with maximum simplicity.

05. Metaverse

The term "metaverse" has its origins in the 1992 science fiction novel *Snow Crash* as a portmanteau of "meta" and "universe." Various metaverses have been developed for popular use such as virtual world platforms like *Second Life*.

Some metaverse iterations involve integration between virtual and physical spaces and virtual economies, often including a significant interest in advancing virtual reality technology.

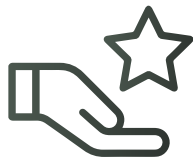

Stephenson depicts the Metaverse as an immense black sphere with a circumference of 65536 km (216), divided in two parts at the height of the Equator from a viable route also on a monorail with 256 (28) stations, each of 256 km distance. On this sphere each person can create in 3D whatever he/she wants: shops, offices, nightclub, etc. and all is completely available to users who are interested to visit.

We have the ambition to create the first bar to sell our different types of Gin (and more) on the Metaverse, so that every user will be able to enjoy our MetaGin in the future.

06. Beverage

We are already in close contact with a company specialized in the production of Gin for soonest release and, at the same time, we also signed many agreements with several bars to include MetaGin in their product range. We are confident that these actions will significantly boost the promotion of the product so that more and more people will learn about MetaGin token.

07. Rewards

A special function designed to reward with bnb those investors who own a certain amount of MetaGin token and believe in our project with a long term commitment. We will obviously recognize a larger reward to those who hold more tokens than others, so that they can feel gratified and more engaged in the project.

08. Vip Group

An exclusive group for those who joined the private sale or own a significant amount of MetaGin token. Being part of this group will grant you to receive the latest news in advance and actively participate to some of the most important decisions of the MetaGin team.

09. Photo

The screenshot displays the MetaGIN website with a dark brown, space-themed background featuring constellations and planets. The navigation bar at the top includes links for About, Composition, Dates, Fee, White Paper, Tokenomics, Roadmap, Communities, Partners, and Contact. Two buttons, 'JOIN PRIVATE SALE' and 'JOIN TELEGRAM', are positioned on the right. The main headline reads 'Get rewarded with bnb for drinking the first MetaGIN ever!'. Below this, a sub-headline states 'It's real and with its own e-commerce platform! Just one sip and it will take you to the Metaverse with us! Don't hesitate, buy now and get rewarded!'. Two buttons, 'JOIN PRIVATE SALE' and 'WHITE PAPER', are centered below the text. At the bottom, a 'Private Sale' progress bar shows '110 BNB Sold' out of '150 BNB Sold'. To the left of the progress bar, a countdown timer indicates 'Private Sale is Live Now' and 'Private Sale ends in 19 : 04 : 07 : 40' (D : H : M : S).
